

Come along and join us in nursery for high quality **free play** opportunities.

We offer a relaxed environment where children can access a wide variety of **play experiences**.

Adults and children can **make new friends** and can begin to **build relationships** with our nursery staff in preparation for their entry to nursery education. They can also become familiar with the **nursery environment** and some of our simple routines.

Each session is themed and includes free play, snacks and **songs and rhymes** as well as a

free resource to take home.

Children must be accompanied by an adult. We look forward to seeing you soon.
